Dear Ms Htun

Student number: 31658695 Transferred Last semester to Perth Australia in May 2013

I am Associate Professor Peter Cole BSc (hons), Dean of Murdoch University. I am writing this letter behalf of university. It is my great pleasure to inform San Hla Maw Htun for the transfer last semester to Perth Australia. The university offer scholarship to ten students who are top in Kaplan undergraduate Murdoch during the year one and two period. Regarding with her results in April exam was very good and perfect. She has got higher marks in three subjects. We will be sending you the final exam results shortly. I will be your Guidance Counsellor in last semester at Perth and have had the pleasure of working San hla Maw Htun on several committees and programs.

I see that this scholarship is intended to go to ten students who demonstrate strong leadership skills. This is the very rare opportunities to all students. San Hla Maw Htun fits these guidelines perfectly. This past year she took on the primary responsibility for one module in the IT program and in every group presentation she was a leader and did very well according to the lecturer recommendation. It is rate to meet a high school student who is so maturing organized and results-oriented. She's already passed the three modules oral test in Australia embassy.

I can whole heartedly support San Hla Maw Htun for this award. Her demonstrated leadership and vision have made a positive impact on our university school community and I have no doubt that this will continue at the university will be attending. All the ten students need to apply Australia visa during this week or next week. The Kaplan will be informing you details of this offer; we will be updating you the more information. Moreover, she needs to be in Perth before 25th May; next semester will be start on 28th May 2013 and will be

returning to Singapore in July 2013. The University will be providing the accommodations and food during the semester. For the requirements, we will be sending you via email. If you have any questions about this, you can get back to me or call me in future.
